

## data centers

We have a team versed in serving clients with these dynamic spaces on a local, regional, national and international level. Our team's versatility in discerning owners' standards, program/project objectives and applying advancements in technologies that support their long-term goals has earned us repeat requests to support their global consulting design needs. Our ability to earn repeat requests is due in part to the team's experience in supporting clients who require flexible, scalable professional resources that complement their business, operating, and staffing objectives.
